- ☐ Headphones
- ☐ Ear plugs

Notes:

Packing Tip!

Don't forget to pack a European adaptor. A power bank may also come in handy, as some older hostels have a limited number of power sockets.

Walking Clothes

Go for technical fabrics that are lightweight and quick-drying. Try and avoid cotton or denim, as they tend to absorb sweat and stay wet next to the skin.

This list is intended as a guide only. If travelling outside the summer months, you'll likely need some additional kit, including warm layers and a heavier-weight sleeping bag. Read up on the seasonal variations for your chosen route and check the weather forecast before you set off.
